## Go mobile with new VAIO E Series 11

Now there's an even wider choice of VAIO E Series notebook PCs from Sony, with softly-rounded styling plus power to handle on-the-go tasks with ease.

Super-portable **VAIO E Series 11** is the newest addition to the family, sharing the same distinctive 'wrap-around' looks as its larger E Series 14P, 15 and 17 siblings.

The 29.4cm (11") notebook is ideal for students, busy social networkers and anyone who needs to stay mobile without sacrificing PC performance.

Despite easy-to-carry dimensions, VAIO E Series 11 is made to entertain. There's plenty of multimedia muscle courtesy of AMD Dual-Core E2-Series APU for Notebooks with AMD Radeon™ HD 7340 Graphics. xLOUD™ and Clear Phase™ technologies from Sony boost speaker volume without distortion for rich, natural sounding movies and games. There's also HD web camera powered by 'Exmor for PC' for clearer, crisper web chats. Navigating documents and media files is easy thanks to the large, button-free touchpad.

VAIO E Series 11 also sports impressive connections including USB 3.0, Bluetooth 4.0 and HDMI out. The new notebook even doubles as a handy charger for your smartphone. Just plug in your phone via USB for a handy top-up - even when the computer is switched off or in sleep mode.

Just lift the lid: Rapid Wake ensures you're ready for action in moments, saving precious time that's lost waiting for other PCs to boot or wake up from hibernation. And with battery life up to 6 hours\*, there's plenty of stamina for note-taking, web browsing and catching up with emails during the day.

The easy-to-use family of E Series VAIO notebook PCs from Sony also includes [VAIO E Series 14P](#), [VAIO E Series 15](#) and [VAIO E Series 17](#).

New VAIO E Series 11 is available in a choice of white, black or pink colour finishes.

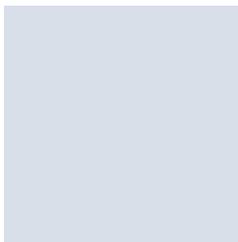

*\* Actual battery life will vary depending on your specific hardware and software configurations. Benchmark: MobileMark 2007.*
